

(Que:1) 1-mark question

1. What is computer Network ?
2. In OSI model which layer represent network.
3. CDDI stand for_____.
4. FDDI stand for_____.
5. What is the full form of TCP/IP ?
6. Which is the last layer of OSI reference model ?
7. OSI stand for_____.
8. LAN stand for_____.
9. MAN stand for_____.
10. WAN stand for_____.
11. Full form of CSMA/CA.
12. Give full form of p2p.
13. _____ Topology is combination of two or more network topology.
14. Which topology used centralized system? (ring/ star)
15. Tree topology is combination of which Topology?
16. What is Topology ?
17. The _____ layer lies between the session layer and application layer.
18. In TCP/IP model how many layers are there ?
19. Which layer of OSI model is responsible for routing.
20. In bus topology both end required terminator (yes/no)?

s(que:2) 2-mark question

1. What is use of computer Network ?
2. What is advance network Topology ? Explain any one topology.

3. Explain peer-to-peer network model in detail.
4. Explain client –server network model.
5. Explain polling.
6. Explain Ethernet and FDDI.
7. List out OSI layers.
8. Explain star and ring topology.
9. Explain Database services.
10. Explain Hybrid topology with advantage.

(que:3) 5-mark question

1. Explain TCP/IP model in detail.
2. Explain network access method in detail.
3. Describe OSI reference model.
4. Explain network services.
5. Explain network communication method.
